UNIVERSITY

UNSW HSC Maths Course Selection

While we encourage everyone to study the level of maths at which they feel sufficiently challenged, below are some guidelines for the minimum level of maths required for some of our degrees. Please also see [Assumed Knowledge](#) for more information.

Type of Degree	Assumed Knowledge
Science with Mathematics Major	Mathematics & Mathematics Extension 1, study as much maths as you can
Science or Engineering	Mathematics and Mathematics Extension 1
Commerce with Actuaries, Finance or Accounting Major	Mathematics and Mathematics Extension 1
Health Sciences	Mathematics

Studying at least HSC Mathematics Extension 1 will leave your options open when you choose your university degree. Knowledge of mathematics is a useful skill in any profession, even if it is not required for a particular course. No doubt, you will have to use mathematical tools such as graphs and statistics for the rest of your life. Learning mathematics also teaches you to approach problems in a systematic and logical way. This is a transferable skill that is particularly important in project management and it is an important skill for life.

<https://www.maths.unsw.edu.au/highschool/hsc-course-selection>

UOW College Australia Now Accepting applications for 2022

A wide variety of Diploma level programs that dovetail into Degrees at University of Wollongong. ATAR entry is very considerate.

UOW College provides pathways to the University of Wollongong. We offer uni preparation courses to support students and progress to university studies. We also provide VET courses for students seeking work-ready qualifications in Nursing or Fitness. These can also be used for a direct pathway to a bachelor level study. Find out more at below.

<https://coursefinder.uow.edu.au/uow-college/pathways/index.html>

Experience ACU webinar - Five good reasons to study criminology

7 July 2021

2:00 pm-3:00 pm

Explore how society creates crime and the social causes and drivers of criminal activity (criminology). Hear how this degree can lead to a range of exciting jobs in the justice sector and beyond.

<https://web.cvent.com/event/4c36d618-3ebc-47db-a351-a786e7a67abf/summary>

Experience ACU webinar - Starting your business and IT degree: what you need to know

5 July 2021

10:00 am-11:00 am

Hear from our panel of graduates, students and staff. Learn from their experiences and get tips and advice for pursuing a degree in business and information technology.

<https://web.cvent.com/event/8ae65bd4-e7b4-4629-b796-474cef30e7ae/summary>

Experience ACU webinar - Exploring the 'big questions' - Philosophy

1 July 2021

10:00 am-11:00 am

Philosophy is about tackling the big questions – those fundamental to understanding ourselves and society. For instance, are we separable from our bodies? If we are, what does this say about the future of society? Get ready to tackle this 'big question' in our philosophy session.

<https://web.cvent.com/event/86821b2a-3c8b-406f-aadc-bb8354994a84/summary>

Experience ACU webinar - An arts degree?

8 July 2021

10:00 am-11:00 am

What are the benefits of studying an arts degree? What can I do with it? Where can it take me? In this workshop we'll take you through some of the exciting areas and career opportunities you can explore when studying arts.

<https://web.cvent.com/event/d678d2a4-a1cf-4dcb-8095-41842eca77e3/summary>

UTS Adjustment Factor Caps

You may apply for and receive adjustment points from more than one admissions scheme (check each scheme for eligibility criteria) but some faculties at UTS apply a cap to the total number of adjustment points that you can receive for their courses:

Business - 10 point cap

Design, Architecture and Building; Engineering and IT - 13 point cap

<https://www.uts.edu.au/future-students/undergraduate/admission-requirements/admissions-schemes>

UTS 2022 intake update for Year 12 students

UTS understands that there has been considerable disruption to your studies due to COVID-19 and some of you are feeling uncertain about how your plans to start at university in 2022 will be affected.

We're committed to ensuring you have clarity about your path to uni and that you are supported through an equitable admission process.

Year 12 students can apply for our admission schemes, including the educational access schemes (inpUTS) and Schools Recommendation Scheme. Both these schemes are aimed at helping Year 12 students gain equitable entry into university by taking into account specific personal circumstances along with your ATAR when considering your application.

The first offer round for current school leavers is December Round 2.

<https://www.uts.edu.au/future-students/undergraduate/admission-requirements/admissions-schemes>

University of Newcastle - Joint Medical Program Info Session: Webinar Series

Join Academics and Student Ambassadors to learn about the [Joint Medical Program \(JMP\)](#). Discover what you will study throughout the degree, work integrated learning opportunities and career outcomes.

The Bachelor of Medical Science and Doctor of Medicine (MD - JMP) is an innovative five year degree that will prepare you for an exciting and rewarding medical career. Delivered in partnership with the University of New England, Hunter New England Local Health District and Central Coast Local Health District our students graduate ready to play a key role in shaping and improving future health care for individuals and communities.

The University of Newcastle Central Coast Clinical School is partnered with the Central Coast Local Health District and the Central Coast Research Institute, and are both co-located on the site of the redeveloping Gosford Hospital. Central Coast final year medical students are participating in the exciting new Assistants in Medicine Program as part of the NSW health response to the COVID-19 pandemic and are very proud of the opportunity to help our community.

<https://www.newcastle.edu.au/study/undergraduate/degree-webinar-series/joint-medical-program-jmp-webinar-13-july-2020>

University of Newcastle - Joint Medical Program - How to Apply – 5 Steps

To apply to the Joint Medical Program in 2022, you must complete the following three steps. Remember, our Joint Medical Program is world-class and entry is competitive. Each year, 170 places are available in the program across both the University of Newcastle and the University of New England; more than 3,500 people apply for those spaces. Your application will go through a rigorous [selection process](#). If your application isn't successful, we encourage you to apply again the following year or to consider one of the many alternative degrees offered by the [University of Newcastle](#) or the [University of New England](#).

[Click here](#) to download a prospectus providing an overview of the Joint Medical Program including the application and selection process.

<https://www.newcastle.edu.au/joint-medical-program/how-to-apply>

The Ultimate US & UK University Summit!

Discover what it takes to gain entry to the world's top universities from application and education experts. This is your ticket to getting admitted!

Get your questions answered by US & UK admissions experts

Hear from students that are currently studying at top universities

Get tips and insider knowledge on gaining admission

Learn how to gain admission to the Ivy League, Oxford and other world leading universities!

Join us on Sunday, June 6, when university admissions experts, former Stanford and Oxford admissions officers, and recent Ivy League and Oxford/Cambridge admits will give insight as to what it takes to stand out above the competition.

University of Sydney Spectacular Science

For high school students from Years 7 to 11

This event will run again in November 2021.

Stay updated on our programs by joining our [Science Alliance mailing list](#).

University of Sydney, Camperdown Campus

Cost: \$24.20 (inc GST) per student

Students will experience first hand some of the intriguing and important areas scientists are working in and spend a spectacular day submerged in science.

Take a journey into the fascinating world of science, with a day trip to Spectacular Science. Do hands-on science activities and meet real scientists who'll share what they are discovering about the world around us.

Designed for high school students from Years 7 to 11, Spectacular Science will engage and spark your students' interest in the huge diversity of science

<https://www.sydney.edu.au/science/industry-and-community/community-engagement/spectacular-science.html>

UTAS' Schools Recommendation Program

How does the program work?

Our program allows Australian year 12 students to apply for up to five courses at the end of May. You then receive an offer in July, which will take the pressure off you during year 12

Rather than an ATAR, your application is based on your school's recommendation and your year 11 results.

The program is open to nearly all of our courses, including our new flexible double degrees, undergraduate degrees, and associate degrees.

Courses in Nursing, Medical Radiation, and Paramedicine work differently. You can still apply for these from 31 May, but, depending on your course, you may not receive an offer until your ATAR is released in December.

The [Bachelor of Medicine and Bachelor of Surgery](#) is not part of the program. Instead, you'll apply for this course in early August.

<https://www.utas.edu.au/study/schools-recommendation-program>

Study in the US - Virtual Information Session

Saturday 19 June 9.30am AEST - [Register here](#)

We look forward to seeing you on the day.

Internationally Educated is excited to host a live, virtual information session providing students and families from years nine to twelve (9-12) the opportunity to learn more about Studying in the US.

This general presentation draw on our experience having worked in US university admissions and will provide insight to the US university application process and the higher education system in the US. A brief Q&A session will follow the presentation.

Registration is required and the presentation is available on the following date:

The presentation will include an overview of the US higher education system and the application process to US universities.

New virtual opportunities at US universities for international students

The US university admission landscape is changing! The global pandemic has meant that US universities were required to shift their recruiting strategies from in-person high school visits and college expos to a virtual platform, expanding their reach but eliminating the personal opportunity to connect with prospective students. At the start of the pandemic university admission teams were required to act quickly to ensure their websites seamlessly conveyed the universities' unique experience, academic offerings, and student life and residential opportunities. Admission teams transitioned their in-person school recruitment to virtual information sessions which could be attended by any high school student. For international students, who traditionally have less direct access to US university admission representatives, this was a welcome change as the transition created an opportunity to explore additional university opportunities. <https://www.internationallyeducated.com.au/post/reflection-on-the-admission-cycle-2020-21-a-virtual-recruiting-cycle-with-no-testing-requirements>

TAFE

The FAQs of online courses

Although your students are or have already returned to school, more than ever, online courses provide the allure of pyjama bottoms, warm comfortable surroundings and flexible study options. TAFE NSW provides you with the FAQs of online courses that may help your students:

<https://www.tafensw.edu.au/career-advice/blog/-/blogs/online-courses-what-you-need-to-know>

John Deere Top Gun Apprenticeship Program 2022 Open Now

As an apprentice you'll attend Orientation Week in February to meet your teachers, the H&P Management Team, your support network and your dedicated HR Mentor.

Where Can Students Find Out More About Tocal College

Take a virtual tour on any area that takes your interest.

Dairy, beef, sheep, horses, eggs, property, natural resources, bees.

<https://www.tocal.nsw.edu.au/farm-and-facilities/tocal-farms/tocal-virtual-farm-navigation>

Tocal High School Featured Programs

Sustainable Biomes (Stage 5 Geography)

Tocal has a wide range of landscapes; native, riverine, built-up, wetland and cultivated, all with easy access for student groups. The full day program includes hands-on activities like soil testing, water testing and vegetation identification.

Farm Case Study (Stage 6 Agriculture)

Product Case Study

Tocal Dairy is one of NSW top producing mid-size dairies, milking 280 cows twice a day. Students have the opportunity to speak with the Dairy Manager to gain first-hand information on the day to day running of a dairy as well as understand the range of skills and technology needed to run a profitable enterprise. Soil testing and pasture identification can also be included.

Tocal Virtual Farm

View the [Tocal Virtual Farm](#) online before your visit to give students a solid overview of the property. This enables students to better understand the information and activities presented on site. The virtual farm is also a great follow-up activity for students with workbooks for Stage 4 Technology Mandatory (applicable to other syllabus areas as well) and Stage 6 Agriculture

<https://tocal.com.au/education-2/>

Tocal Farming and Agriculture Open Days

Friday 2 & 9 July

Friday 24 September & 1 October

Our College Open Days are a wonderful opportunity to visit Tocal and experience first hand all that it can offer students who are eager for a rewarding career in agriculture, agribusiness or horse breeding and training.

The Open Days are held on the Fridays of the winter and spring school holidays and provide prospective students, their families and carers an ideal forum to visit the College and get a feel for what life as a student is really like.

Should you require accommodation while attending the Open Days, Tocal College has a range of excellent and affordable accommodation options. These include motel rooms, flats and cottages. Please contact our accommodation booking team for further information at tocal.bookings@dpi.nsw.gov.au.

Each day's activities include:

- an overview of full-time courses,
- a description of career opportunities,
- information on fees and financial assistance,
- inspection of College campus facilities,
- tour of Tocal's commercial farms and training facilities,
- opportunities to chat with staff and also undertake an informal interview (if desired).

<https://www.tocal.nsw.edu.au/students/future-students/open-days>

<https://www.torrens.edu.au/whats-on/business-info-night>

Reminder Torrens Virtual Careers Expo

15 July

The Virtual Careers Expo is an innovative and interactive collaboration between Australia's major tertiary education providers, designed to showcase the wide range of options available to students as they prepare for life after school.

<https://www.torrens.edu.au/whats-on/virtual-careers-expo>

AFTRS Meet the Creators - Making 'Cousins'

8 June

This edition of Meet the Creators features the filmmakers behind forthcoming New Zealand film, *Cousins*: producer and co-director Ainsley Gardiner and writer, co-director and actor Briar Grace-Smith.

From the producers of *Boy* and *The Breaker-Upperers*, *Cousins* is an adaptation of Patricia Grace's eponymous novel and features an all-Māori female cast and key creative team. Tikanga Māori (Māori cultural practice) is an integral part of Māori culture and is at the heart of the *Cousins'* story. Filming in Rotoiti at Te Waiiti Marae under the care of

Muriwai Ihakara and the local Ngāti Hinekura and Ngāti Pikiāo people meant the film was grounded in Te Ao Māori. Aunties, uncles and cousins all played a role, some as actors and others lending a hand to the production. Join Gardiner and Grace-Smith, in conversation with academic and writer Amy Thunig, as they discuss their work on the film, the process of adapting the novel and their decision to co-direct the film. Catch the [trailer](#) for *Cousins*, and get a behind the scenes look at the film [here](#).
<https://www.aftrs.edu.au/news-and-events/events/meet-the-creators/>

AFTRS Film Emerging, Gifted and X (EGX)

Emerging, Gifted and X (EGX) is an online conversation series of free, 30-minute discussions with some of the most exceptional and talented screen creatives, who come from diverse backgrounds. We hosted four earlier in 2020 that focused on writing and directing, and we now present four more focusing on crew and technical work in screen. Diversity to AFTRS means a screen community and culture that is representative of all Australians, including those from non-Anglo-Celtic cultural backgrounds, people with a disability, diverse gender and sexual orientation, and those with geographic and other socioeconomic disadvantages. Sessions will be live-streamed on the [AFTRS Facebook page](#) and will be available for catch-up viewing after the stream.
<https://www.aftrs.edu.au/news-and-events/events/emerging-gifted-and-x-egx/>

Torrens University Early Entry Applications Now Open

With a conditional offer for 2022. Early Entry is open to all Year 12 students in NSW, QLD and SA.* Apply now to secure your place at Torrens University Australia through our Early Entry Program. Applying is easy:

1. Complete the enquiry form below, or
2. Complete our [online application](#)

Either way, one of our friendly Torrens University Course and Careers Advisors will contact you and confirm all details. Then, within 2 business days of your application, we will email you to confirm your place.
<https://www.torrens.edu.au/how-to-apply/early-entry-program>

Mercer School for Audio, Animation, Music, Fashion, Interior Design, Photography Open Day

August 28, 2021

WELLINGTON ST CAMPUS VIC & ONLINE

At our Collarts Open Day, we invite you to come and experience Collarts life at our [Wellington St Campus](#). Enjoy detailed information sessions about our online and face-to-face courses, jump into Q&A sessions with teachers and student advisors, and discover what it's like to be part of our creative community. The best part? Thanks to Open Day also running online, you won't have to worry about having to choose between seeing a workshop or a course overview, and our key staff will be available to answer your questions directly via video conference. All Open Day attendees, whether you came online or on-campus, will also receive an email with links to all recorded sessions afterwards, so you can watch our overviews back at your own pace. Don't miss out on this chance to explore our learning facilities, remote or on-campus and unveil our innovative and dynamic music, audio, design and learning technologies.

<https://www.collarts.edu.au/open-day>

SIBT (Sydney Institute of Business & Technology) Information Sessions Open

We treat every day as an Open Day, there are no set times or days, we can meet you at a time that's convenient to you. At Sydney Institute of Business and Technology (SIBT), transitioning to university is simple. An SIBT diploma is the equivalent to the first year of a bachelor's degree, so you can fast track your way into your second year of a bachelor's degree at Western Sydney University, Sydney City Campus. If you're unsure of what to study or if you need help to plan your pathway to university, let our experienced team help you with these difficult choices.
<https://www.sibt.nsw.edu.au/information-sessions>

Shillington Graphic and Web Design Information Session

Friday, 9 July at 6:00pm

At Shillington, we're proud of our personable and passionate approach. We'd love to meet and show you why! Join us for an upcoming Info Session to learn about our mission, watch an interactive demonstration of design software and creative thinking techniques, meet teachers, chat with graduates, view a wide variety of student portfolios and get a digital copy of the Shillington Post.

Subject to availability, we will visit Australia's only nuclear reactor OPAL, the Australian Centre for Neutron Scattering, the ANSTO Nuclear Medicine facility and the Centre for Accelerator Science.

<https://www.ansto.gov.au/whats-on/saturday-science-discovery-tour-0>

An opportunity for maths, geography and IT students looking for work experience in the future

If this sounds like you, why not try surveying work experience on for size?

Work experience is an important part of the secondary school learning experience, and a little sneak peek at what workplaces look like for adults.

Employers will also be impressed with applicants with surveying experience; jobs are always about your CV, and every little bit helps!

It's also a great way to test out something without committing to it as a career path. A week in a workplace will give you a sense of some of the complexities of the job, and some of the challenges and rewards that surveyors face. Following your land surveying work experience placement, you may discover that it's everything you want in a career – or perhaps it's not quite for you.

<https://www.alifewithoutlimits.com.au/secondary-students/>

HSC Preparation Courses for English Standard, Advanced Students and Extension 1

We offer an extensive program of both standard and advanced HSC English preparation courses across a range of topics, giving students the necessary knowledge and skills to make their HSC English studies more effective and boost their HSC results.

Our HSC preparation courses cover novels from Great Expectations to Emma, and The Crucible to 1984. We have courses that revise Shakespeare's plays including The Merchant of Venice, Henry IV Part 1 and The Tempest. We also cover the poetry of Keats and T S Eliot and films ranging from Billy Elliot to Good Night and Good Luck.

There's also a course on The Craft of Writing and an English Advanced Exam Preparation Course.

Our HSC English preparation short courses are open to everyone. Sign up today and boost your HSC results.

<https://cce.sydney.edu.au/courses/hsc-preparation/english>
